

This is a sample paragraph to test the PDF extraction functionality. The goal is to ensure that only tabular data is extracted while ignoring normal text. Tables should be properly detected and structured in the output file. Below this paragraph, you will find a table with structured data for testing.

ID	Name	Age	Country
1	Alice	25	USA
2	Bob	30	UK
3	Charlie	35	Canada
4	David	40	Germany
